

INVITATION TO TENDER FOR THE REFURBISHMENT OF ROOMS MEANT FOR ESTABLISHMENT OF HIGH DEPENDENCY UNITS (HDUs) AND THE REFURBISHMENTS INSTALLATIONS TO RENDER THE HDUs NEAT AND FUNCTIONAL AT THE THREE HOSPITALS

Right to Care is requesting proposals from credible service providers for the establishment of High Dependency Units (HDUs) in the named hospitals in Eswatini. Right to Care received funding from USAID under ADAPT mechanism to support the strengthening of the health system in Eswatini as part of the national pandemic preparedness. The purpose of ADAPT is to provide rapid and immediate technical support during periods of heightened vulnerability caused by emerging and new acute infectious disease epidemics while building health system capacity increasing resilience and country self-reliance.

The scope of this project includes for refurbishments of rooms proposed for establishment of High Dependency Units [HDUs] and refurbishment installations to render the HDUs neat and functional.

We would like to invite suppliers who are interested in providing the above at the following Eswatini hospitals:

- **Pigg's Peak District Hospital**
- **Hlatikhulu Government Hospital**
- **Good Shepherd Mission Hospital**

Contractors are advised to attend the scheduled site meetings as only those contractors who attend the site meetings will only be considered for contract awarding.

Site meetings are scheduled for:

Pigg's Peak District Hospital, Pigg's Peak – 21 June 2022 at 11:00.

Hlatikhulu Government Hospital, Hlatikhulu – 22 June 2022 at 11:00

Good Shepherd Mission Hospital, Siteki – 23 June 2022 at 11:00

All installations ought to be fit for hospital health and clinical purposes. No ordinary plumbing copper pipes or items not suitable for hospital environment will be acceptable.

Other Compulsory Requirements:

- Company Registration documents
- VAT registration documents
- Summarised table of cost – this must be on a separate page on its own
- Provide at least 3 client references where similar work is / was performed
- Proven track record working in health care environment will be advantageous
- Knowledge of USAID rules and regulations applicable to construction activities
